

Kenosha Police Department

John W. Morrissey
Chief of Police

Kenosha Police Department Organizational Chart

On behalf of the men and women of the Kenosha Police Department, I am pleased to present our 2011 Annual Report. This report is intended to be a resource, not only for elected and appointed officials, residents and law enforcement professionals, but also for the people who visit or work in the City of Kenosha.

The strength of the police department rests in the quality of our employees and our partnership with the community. I believe 2011 has demonstrated a department continuing its rich connection with the community, an example of that partnership is the Hope Council of Kenosha, which is featured in this report.

As you will note in our crime statistics, fluctuations in crime occur from year to year. We take pleasure in reporting the decreases, but will always report whatever trends are evident. The Kenosha Police Department remains committed to timely, accurate reporting regardless of the direction in reported crime.

(Part One) crimes include murder, robbery, sexual assault, aggravated assault, burglary, theft, arson, and auto theft. The categories of murder, aggravated assault, and burglary, decreased, arson remained the same, while sexual assault, theft, robbery, and auto theft increased. I am very pleased to report that the City of Kenosha did not have any murders in 2011. The Department's service call workload dipped slightly (-0.8%) last year, yet the complexity of the calls has increased, specifically in computer crimes, identify thefts and scam artists. Although our crime statistics are still too high, they are lower compared to other cities of comparable size. We will continually strive to work with the community in reducing crime as much as possible.

The current economic recession has challenged us all; as a result, the Kenosha Police Department regularly seeks grants to supplement the authorized budget. In 2011, grant funding continued to be used for programs that enabled us to conduct drunk driving, seatbelt, and speed enforcement campaigns, and to inspect stores that sell tobacco and alcohol products. Equipment funded through grants includes in-car laptop computers and the crime-mapping program. The Department continued to receive a beat patrol grant that funds a portion of four police officers.

Every year there are significant personnel changes experienced within the Department, 2011 was no exception, as evidenced by the retirement of Assistant Chief Thomas Genthner and Assistant Chief William Brydges. These individuals have been integral members of the Kenosha Police Department family. Their dedication and commitment to the Department and the residents of Kenosha will be missed.

I am proud of the men and women of the Kenosha Police Department who serve the citizens of this city. They have demonstrated pride in the organization and a determination to make this city safe and livable for everyone. The community itself deserves credit for working successfully with the Department in providing information regarding illegal activity in the City of Kenosha.

2012 will see a significant change in the operation of the Department, which I am confident, is for the betterment of the citizens we serve.

Respectfully Submitted,

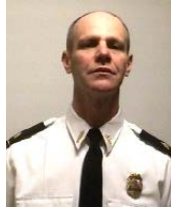

John W. Morrissey
Chief of Police

The mission of the Kenosha Police Department is to serve all people with respect, fairness, and compassion. We are committed to preserving peace, order, and safety: enforcing laws and ordinances; and safeguarding constitutional rights.

Significant Events

While not unused to snow, on February 1st and 2nd Kenosha experienced a blizzard resulting in 25 inches of snow over the course of two days. Due to the large amount of snow and difficulty in travel, the morning of February 2 found officers walking into work and being picked up by other officers with four wheel drive vehicles. Due to the significant number of vehicles and operators caught in the storm, the Kenosha Police Department partnered with the National Guard in going out and assisting stranded motorists. Officers responded to over 121 assist motorist calls, 61% of all calls that day.

Funeral services were held at St. Mark's Catholic Church for fallen officer Craig Birkholz on March 26th. Birkholz, a Fond du Lac police officer and native of Kenosha, was shot and killed in the line of duty by an armed gunman on March 20. Squad cars lined ten blocks of Sheridan Rd. as law enforcement officers from around the country came to honor Officer Birkholz and the sacrifice he made.

Shortly after 8:00 p.m. on June 30, high winds tore through Kenosha causing extensive damage to the east side. Significant numbers of trees were blown over leaving damage comparable to that of a tornado. Jeremiah Williams fell victim to the wind storm when, while riding his motorcycle, Williams drove into the path of a falling tree which struck and killed him. That night alone officers responded to hundreds of calls related to the storm including power lines down, trees blocking the roadway and other assistance calls. Power was lost for days in several parts of the city.

Justice Assistance Grant – The Kenosha Police Department was awarded \$28,307 in JAG grants. The funds were used to purchase squad laptops, led lighting for motorcycles, radars and a radar certification unit so that the department can perform its own certifications.

Department of Transportation Grants – The Kenosha Police Department was awarded \$70,000 in DOT grants for directed enforcement of speeding, seatbelt and drunk driving statutes. With this grant came a \$10,000 allowance for the purchase of equipment which was put towards the purchase of laptops and printers for the motorcycle unit.

Traffic and Criminal Software The Kenosha Police Department began the implementation and assimilation of the TraCS program. TraCS allows for officers in squads to complete tickets on mobile data computers, print them out in the squad and issue paper copies of tickets to traffic violators. It also allows for the completion of electronic vehicle crash reports. All information is then electronically transferred to the records management system, courts and the department of transportation creating a virtually paperless process.

Crime Analysis Software The Kenosha Police Department put into operation a crime analysis program in order to better evaluate crime and patterns of crime within the city. Included with the program is a web version which allows the program to be accessed by the public.

Crime Prevention Unit The Crime Prevention Unit was recognized by the Wisconsin Apartment Association for its work with the Crime Free Multi Housing Seminars. The number of Neighborhood Watch groups increased to 158.

Featured Organization

Hope Council on Alcohol & Other Drug Abuse

5942 6th Avenue
Kenosha, WI 53140
262.658.8166 phone
262.658.8210 fax
Website – www.hopecouncil.org

The Hope Council on Alcohol & Other Drug Abuse, Inc.'s mission is to reduce the impact of alcohol and other drug abuse in our community by providing education, prevention, intervention and referral services.

Incorporated in 1969, the agency carries out this mission in the following ways:

Assessment and Referral Services are in place to ensure that individuals suffering from problems stemming from alcohol and other drug abuse are referred to appropriate treatment providers and provided with appropriate support services.

- **Intoxicated Driver Program** – Trained alcohol and other drug abuse assessors provide comprehensive assessments, referrals and education to clients arrested for operating motor vehicles while under the influence (OWI) in order to reduce further risk-taking behaviors.
- **Underage Drinking Accountability Program** – Eight hours of educational programming is provided as a deferment to an underage drinking violation through an agreement with local courts.
- **Community Assessments** – Substance abuse assessments are provided to individuals on a voluntary or court-ordered basis.
- **Community Drug Testing** – Alcohol and other drug testing using nail clippings and blood spots are available without a doctor's order. Referrals and appointments are welcome but not necessary.
- **Impact Panel** – Attendees hear powerful stories from individuals who have been impacted by drinking and driving.

Special Families Programming assists families during times of crisis and to control the direction of their lives.

- **I Am Special Programming** – Established in the 1980s as a project of the Hope Council, participants attend due to a loved one's substance abuse. There is programming for elementary-aged children, middle school- and high school-aged youth, and adults. These free programs are six weeks long and can be held at the Hope Council or in off-site locations.
- **Supervised Visitation** – This program provides either monitored or direct supervision for parents whom the courts have determined should be observed while interacting with their children. The cost for this program is a one-time administrative fee of \$15 and \$20 per hour of visitation. (Rates are subject to change.) Supervised Visitation hours are offered at times that are convenient to families we serve, such as evenings and weekends.
- **Offender to Opportunity: Workforce Readiness Program** – Ex-offenders who are substance abusers and others are assisted in workforce preparation, job searches and access to mainstream community resources as well as computer skills through this six-station lab.

Community Education and Prevention services are available to all community members.

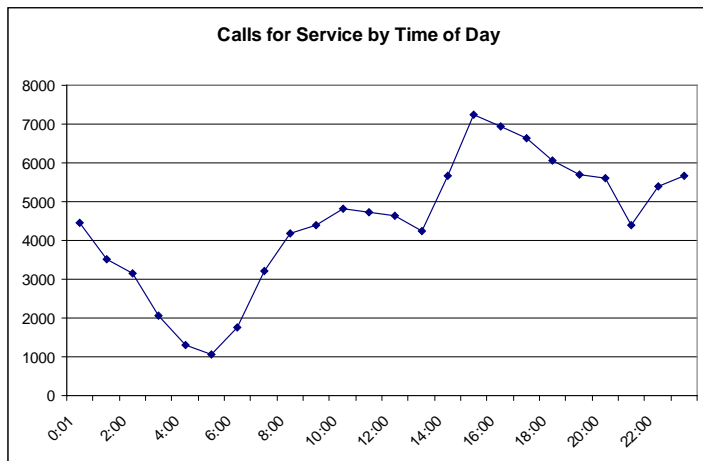

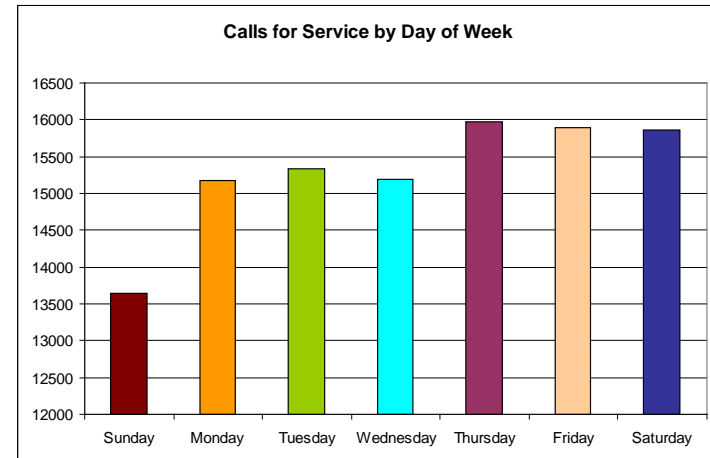

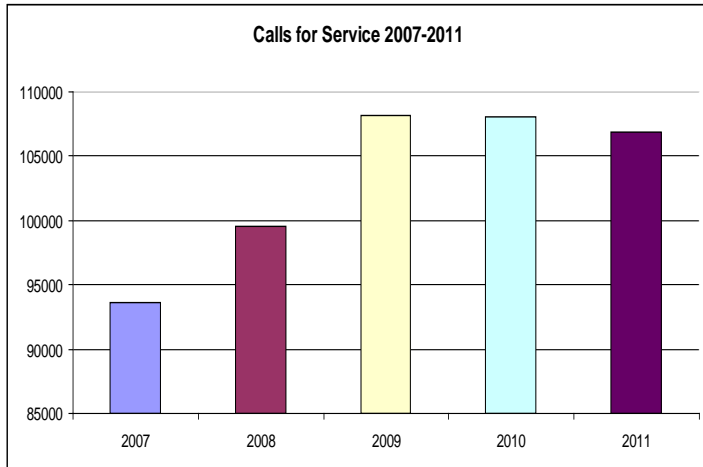

- **Prevention-based Programming and Educational Activities** – Programming on subjects related to substance abuse for children, youth and/or adults is offered at local schools, community centers, business settings, medical facilities and other places.
- **Resource Library** – A free lending library of books, videos/DVDs and brochures is available for anyone interested in learning more about substance abuse issues.
- **Clearinghouse for Substance Abuse Resources** – A listing of resources, including treatment providers, options, funding and support groups is available.
- **Speakers Bureau** – The staff of the Hope Council on Alcohol & Other Drug Abuse has expertise in several areas pertaining to alcohol and other drug intervention, prevention, and referral services and is dedicated to enhancing knowledge through training and community education for all persons involved with, either directly or indirectly, alcohol and/or other drug abuse in the community. Speaker fees are based on ability to pay. See www.hopecouncil.org for more info.
